D. Lexa® MinimzeR™ Eye Gear

- Protect the eyes of workers in and around welding areas from welder's flash burn
- Thin film technology lens that is dark enough to protect against serious injury to the cornea from ultraviolet radiation yet light enough to be functional
- Green tinted lenses cause color recognition problems
- Can be worn under a welding helmet, but should NOT be worn as primary welding eye protection
- Lenses allow a high 50% transmission of visible light, reduce infrared radiation by 65% and absorb 99% of UV light
- Made in USA
- Meets ANSI Z87.1-2003 Standard

Part Number	Lens Description	Frame
CAS 15250-00000	MinimzeR™ Clear - Medium	Black
CAS 15150-00000	MinimzeR™ Clear - Large	Black
