C. Salisbury Linemen's Gloves and Leather Protectors

- Lightweight urethane apron features nylon backing for extra strength and grommets with extra long ties for easy adjustability
- Class 2 gloves with a 14" straight cuff are made from a contrasting two-color combination Type 1 natural rubber to make inspecting for cuts and tears easier when the glove is inflated or stretched
- Component materials comply with FDA regulations for food contact
- Leather Protectors should always be worn over rubber insulating gloves to provide the needed mechanical protection against cuts, abrasions and punctures
- Grain cowhide leather protectors are sewn with heavy-duty nylon thread in a gunn cut pattern
- 10" protectors have an elastic back and 12" protectors have a non-metallic buckle and pull strap
- Kits include electrical insulating rubber gloves, 10" goatskin leather protectors, and 12" canvas protective storage bag
- Protective Storage Bags contain two layered pockets in one bag and are also available for individual sale
- Specify glove sizes when ordering
