

## Safety Cans

### A. Type II UNO® Safety Can

- Integrated fill-and-pour spout offers easy filling, effortless pouring with the Safe-Squeeze® trigger mechanism
- Weight of the can rests on the strongest part of the hand, and a simple finger squeeze on the trigger opens the piston-actuated spout and vacuum release valve and upon release, closes instantly
- Safety features include an internal dual-density, full length flame arrester, self-closing lid and automatic venting
- Meets OSHA and NFPA Standards
- FM approved; UL and ULC listed
- Other colors available
